## SmartOTDR Base Unit

### *New functionalities*

- Management of VIAVI common workflow and data models when synching .json OTDR test results to StrataSync

## OTDR

### *Improvements*

- FTTH-SLM Assistant :
  - First page gives access to custom and pre-defined configuration files with various PON topologies
- Fix the issue related to the duplication of .pdf report files
- Add average loss of the OTDR measurement in the test reports (.pdf)
